

**CONGRESSIONAL BUDGET OFFICE
PAY-AS-YOU-GO ESTIMATE**

October 23, 1998

H.R. 4083

**An act to make available to the Ukrainian Museum and Archives the
USIA television program "Window on America"**

As cleared by the Congress on October 21, 1998

H.R. 4083 would authorize the United States Information Agency (USIA) to make available to the Ukrainian Museum and Archives in Cleveland, Ohio, and to Indiana University Libraries a series of television programs entitled "Window on America." The act would also require reimbursement for the cost of providing the materials but would allow USIA to retain and spend the funds received.

H.R. 4083 would have no net budgetary impact. The costs involved in providing the materials would be several thousand dollars and would be fully reimbursed. Because the act could affect direct spending, pay-as-you-go procedures would apply, but the net effect on spending would be zero.

The estimate was prepared by Sunita D'Monte. This estimate was approved by Robert A. Sunshine, Deputy Assistant Director for Budget Analysis.
